Note on Performance Data:

The Fund's performance data is based upon the Fund's original unit price of \$1.00 for units issued in June 2014, at which time the Australian / US Dollar exchange rate was A \$1.00 = US\$0.9407.

To equate all investors who invested during the capital raising period as having invested on the same US dollar basis (because the Fund's investments are in US dollars), different Issue Price applied for each month of the capital raising period. Investors who were allocated units subsequent to June 2014 were issued units at an Issue Price which reflected movements in the Australian / US Dollar exchange rate. These units were issued at prices higher than \$1.00 as the value of the Australian dollar fell relative to the US dollar since June 2014.

These investors will therefore have individual investment performance which differs (i.e. is lower) from the Fund's performance since inception, because they will not have enjoyed the same FX gains as applicable to the Fund, since June 2014.

Fund Profile

The Fund acts as an Australian feeder fund into the assets of ROC Seniors Housing & Medical Properties Fund LP ("ROC Seniors"). ROC Seniors is a US\$737 million (equity) "buy, fix, sell" private equity real estate fund, investing in value-add US seniors housing and medical properties.

The Fund has a US\$51 million capital commitment to ROC Seniors, of which 76.1% has now been called and invested, and owns a 6.91% share of a diversified current portfolio of (as at 30 September 2016) of 56 separate seniors housing assets across the US, (owned or under contract), which have been acquired for approximately US\$1.7 billion.

Monthly update

Negatively affecting the Unit Price during the month of January was the 4.84% increase in the value of the Australian dollar against the USD dollar from US\$0.7241 to US\$0.7591. The Fund does not hedge currency exposure.
